

IN 2016, THERE ARE 4
OPPORTUNITIES TO
IMPROVE
PATIENT CARE
AT ONE CAN'T-MISS EVENT

ashp[™] **SUMMER MEETINGS
& EXHIBITION 2016**

June 11-15, 2016 | Baltimore Convention Center | Baltimore, Maryland

www.ashp.org/summermeetings

#ashpsm16

NAVIGATING THE PRACTICE ADVANCEMENT INITIATIVE

The future of pharmacy practice requires an all-hands-on-deck approach. The Summer Meetings give you the opportunity to engage in education and networking events with your peers across the healthcare spectrum. Chart your course for success and implement new solutions into your practice while improving patient care.

Take part in a unique and effective learning model that is revolutionizing the way health professionals participate in live meetings. This June at the ASHP Summer Meetings, choose one of four concurrent, content-targeted conferences. This allows you to focus and participate in education and networking events with like-minded peers across the healthcare spectrum. Here is the bonus. **Regardless of which conference you choose to attend, you can access all of the sessions and events happening at any of the four meetings.** It's the best of both worlds — focused education and networking in your specialization and the ability to explore other areas of interest. Your meeting experience is completely customizable; remain in your boutique conference, or attend any individual sessions taking place at the other meetings.

In addition, registrants to all four meetings will have access to:

- Over 18 hours of education presented by distinguished faculty
- Peer-to-peer active problem solving events and social gatherings
- Grand opening reception and lunch buffets
- Vendor exhibits and networking
- Keynote address
- House of Delegates activities
- Pre-meeting BPS Review and Recertification
- ConnectLive!
- And so much more!

As one of the most easily accessible and affordable locations, Baltimore will deliver a unique and valuable professional development opportunity.

Visit the Summer Meetings website to register and learn more about the content-targeted conferences and what you can expect in Baltimore.

www.ashp.org/summermeetings

Education Highlights

- Over 18 hours CPE, CME, and CE for Nursing Professionals
- Keynote address
- Peer-to-peer, active knowledge-sharing events and social gatherings
- Posters

Included with Registration

- Complete access to all sessions and events held at the Medication Safety Collaborative (MSC), Ambulatory Care Conference (AC2), Informatics Institute (I2), and Pharmacy, Practice & Policy
- Grand opening reception
- Lunch buffets
- ConnectLive! (an interactive networking event to engage and inspire immediate implementation)

Pre-meeting Opportunities

- Ambulatory Care Review and Recertification Course
- Pharmacotherapy Review and Recertification Course
- Critical Care Pharmacy Review and Recertification Course
- Pediatric Pharmacy Review and Recertification Course
- CPHIMS Review Course

Other Highlights

- Vendor exhibits and networking
- Student programming
- Joint Commission update
- House of Delegate activities
- Legislative updates

Stay connected! Download the ASHP Live app for your mobile device

Get the most out of the Summer Meetings with your smartphone or tablet. Browse the full agenda, create your own schedule, network, access the session materials, and much more. Available in app stores for Android™, iPhone®, and iPad®, or from your computer at www.ashp.org/ASHPLive.

Turn the tides on your PROFESSIONAL DEVELOPMENT with ASHP'S LIVE REVIEW AND RECERTIFICATION COURSES

- Ambulatory Care Review Pharmacy and Recertification Course
- Pharmacotherapy Review and Recertification Course
- Pediatric Pharmacy Review and Recertification Course
- Critical Care Review and Recertification Course

ASHP offers a contemporary and practical way to prepare for certification exams through an in-depth review that identifies areas needed for further self-study.

New Registration Process for Certification Courses

This year, live course attendees will be required to select from one of three packages within their specialty:

Basic Review Course: includes live course, online resources, and practice exam

BEST VALUE Premium Package: includes live course, online course, online resources, core therapeutic module package, and practice exam

Recertification Package: includes live course, online resources, and recertification exam (for those seeking recertification only)

The question is simple:

How do you learn best?

Our course is best suited for practitioners looking for a practical, hands-on, and real-life approach to learning that can be immediately implemented into their practice.

- ASHP's review course participants follow "patients" in real-life scenarios from initial presentation, medical history, risk factors, and complications throughout their treatments and outcomes. Participants learn as they apply various treatment options based on national standards and guidelines. Strong emphasis is placed on the thought processes needed to solve patient care problems in each therapeutic area. As patient cases are discussed, faculty members are there to present the best answers to questions that illustrate key concepts.

Highlights of an ASHP review and recertification course include:

- **Two days of engaging specialty education** saving you time away from work and drastically reducing travel expenses.
- Learn from the best—our faculty include seasoned professionals and future leaders. They carry extensive knowledge with a fresh focus on your professional needs.
- Free online practice exam to simulate the BPS test and help identify your knowledge gaps.
- Public health and patient advocacy information in every topic area.
- Materials containing 100+ practice questions with explained answers and links to original references.
- Interesting, application-based approach using complex, case-based, interactive learning for high-level practitioners and specialists. Practice questions are incorporated throughout all presentations.

Separate registration fee required. You do not have to be registered for any of the Summer Meetings to attend. However, a 20% discount towards the Summer Meetings is offered to all review course participants!

The Ambulatory Care Specialty Review and Recertification Course is offered through a partnership between ASHP and APhA.

For more information, agenda, faculty list, and to register, go to:

HALL**

GET SOCIAL

Take time to meet new peers, connect with your colleagues, and share with your online network through the virtual activities we've planned to help you connect around the Summer Meetings.

Follow #ASHPSM16

Stay connected to all things #ASHPSM16, the official hashtag for the Summer Meetings. Don't forget to tag your tweets, photos, and videos so others can follow along with your experiences on Twitter, Facebook, and Instagram.

Spread the Word

Let your colleagues know you're coming to the Summer Meetings. Whether you're an attendee, speaker, or exhibitor, we have social media graphics you can download and post to your own personal page, Facebook page, or Twitter profile. You'll find them at <http://www.ashp.org/get-social>.

Tweet Your Takeaway and Win Daily Prizes

What are the most important nuggets of information you discover at meeting sessions? Share your newfound knowledge — remember to tag your tweets #ASHPSM16 — and gain a chance to win a daily prize. Prizes include an iPad Mini 3, dinner for two at a local restaurant, and an Amazon gift card. We'll randomly select a winner each day.

Link Your Social Networking Accounts to ASHP Live App

Want to post an update in the ASHP Live mobile app and share it with your friends in your online network? Select the Twitter, Facebook, or LinkedIn icon (beside the status field) when you compose your update in the app.

We're looking forward to seeing you online! Questions? Email us at socialmedia@ashp.org.

BACK
AGAIN!

Connect
LIVE!

MONDAY | 9:30 a.m. - 11:00 a.m.
EXHIBIT HALL

A Revolutionary Event to Change the Way You CONNECT

What keeps you up at night? What challenges do you face in your practice? Wouldn't it be nice to find the solution at the meeting?!

Due to overwhelming success at last year's meeting, we are pleased to once again offer ConnectLIVE! Making meaningful connections at live conferences is sometimes the most critical aspect of attending a meeting, yet all too often, it fails to happen. That's about to change. At ConnectLIVE! ASHP will change the way you solve problems and share information at live meetings, and it will revolutionize how we interact with our facilitated, participant-centric model. It's networking on steroids accelerated by peer sharing and, in the end, it will help you find the connections and solutions you need to do your job faster, better, and safer.

THE EARLIER YOU REGISTER, THE MORE YOU SAVE.

Registration

Register on or before May 5, 2016, and save. ASHP discounted member rates also apply to members of collaborating organizations and of the Canadian Society of Hospital Pharmacists (CSHP). All pre-registrations must be received by ASHP on or before June 6. If you miss the pre-registration deadline, you can register onsite. Register online or call 1-866-279-0681.

	ASHP/Collaborator Members*	Non-members
Register on or before May 5	\$599	\$965**
May 6 - June 6	\$660	\$1,025**
Onsite - after June 6	\$755	\$1,300**
Resident/Technician/Retiree	\$380	\$440**
Student	\$235	\$295
Physician/Nurse		\$655

* NOTE: If you are a member of a collaborating organization, but NOT a member of ASHP, to register at the member rate you must register online with the discount code or call customer service directly at 866-279-0681.

** Non-member registrants automatically receive a complimentary 6-month ASHP Membership.

Four meetings, one registration

Attendees will have complete and total access to all the sessions and events happening at any of the four concurrent, targeted conferences:

- **The Medication Safety Collaborative** (MSC)
- **Informatics Institute** (I2)
- **Pharmacy Practice & Policy**
- **Ambulatory Care Conference** (AC2).

CE for non-pharmacists is available only for sessions held at the Medication Safety Collaborative.

**Encourage
your patient safety
colleagues to attend the
Medication Safety Collaborative.**

This meeting is designed for interprofessional education and collaboration. It's also a great way to ensure that your entire team stays current on the latest safety practices and advances.

REGISTER NOW AND SAVE.

THE VALUE OF A GOOD NIGHT'S REST

Hotel Reservations

Reserve your hotel room early. The cutoff date to make hotel reservations is May 13, 2016, at 6:00 p.m. Mountain Standard Time or until the group block is sold out. You must register for the meeting in order to reserve a hotel room at the convention rate.

All hotels are within walking distance of the Baltimore Convention Center.

Rates noted above do not include tax, currently 15.5% (subject to change).

Reserve your room through Orchid Event Solutions and enjoy complimentary in-room Internet access.

Featured Baltimore Hotels

	Single/Double
1 Baltimore Marriott Inner Harbor at Camden Yards	\$199/\$219
2 Days Inn Baltimore Inner Harbor	\$149
3 Hilton Baltimore (Headquarters Hotel)	\$202
4 Holiday Inn Baltimore Inner Harbor	\$179
5 Hotel Monaco Baltimore	\$189
6 Renaissance Baltimore Harborplace Hotel	\$189/\$209
7 Sheraton Inner Harbor Hotel	\$195

EXPERIENCE BALTIMORE

CHARM CITY

Baltimore may be one of the easiest cities in America in which to attend the Summer Meetings. It's easy to get to, easy to navigate, and famous for its beautiful waterfront, world-class museums, three centuries of history, and much more. Everything is within steps of the Baltimore Convention Center and all official ASHP hotels.

Indeed, it's this compact, convenient convention community that makes Baltimore the perfect destination for the Summer Meetings.

Here are a few reasons to join us this June in one of the most convenient and affordable meeting locations:

- Ease of access — located in the heart of the Mid-Atlantic
- Inner Harbor — the heart of the convention community
- The sumptuous culinary scene — crab feast anyone?
- Easy to get around — everything within easy walking distance
- Assistance is available to engage within the community
- A multitude of experiences for everyone — with more than 130 attractions, museums, and historic sites
- Historic, hip, and trendy neighborhoods

FOUR MEETINGS. ONE LOCATION.
ALL ACCESS. [#ASHPSM16](#)

AMBULATORY CARE CONFERENCE

Advancing Ambulatory Care Practice Through Education

THE DIRECTION OF AMBULATORY CARE PRACTICE

Designed for practitioners who want to advance ambulatory care practice, AC2 provides education on hot topics and emerging issues in the practice of ambulatory care pharmacy. The goal is to create forward-thinking pharmacy practice models that will ensure pharmacists who are members of the ambulatory healthcare team are responsible and accountable for patient and healthcare system outcomes.

The Ambulatory Care Conference is an event for forward-thinking pharmacists who strive to advance ambulatory care practice.

At the conference, practitioners will use research that aims to further validate the clinical and economic outcomes of pharmacists' contributions to patient care in ambulatory settings, and provide a system for prioritizing patients in need of higher level drug therapy management.

Who Should Attend?

- Pharmacists at all levels of practice
- Technicians
- Consultants
- Vendor representatives
- Other professionals who are interested in current healthcare trends

**SPECIAL
PRICING for
physicians, nurses,
and members of
collaborating
organizations**

Ambulatory Care Conference Highlights Include:

- Over 18 hours of CE on topics including Outcomes, Operations/Billing Management, Transitions of Care, Clinical Controversies, and Competencies.
- Business/marketing-focused keynote address.
- Peer knowledge-sharing events and social gatherings.
- Pre-Meeting Ambulatory Care Review and Recertification opportunity.
- Targeted sessions presented by faculty of experts.
- Vendor exhibits and networking.
- Grand opening reception and lunch buffets.

AGENDA

*= Separate fee required

SATURDAY, JUNE 11

PRE-CONFERENCE

7:30 a.m. – 6:00 p.m.	Ambulatory Care Review and Recertification Course*
	Critical Care Pharmacy Specialty Examination Review Course*
	Pediatric Pharmacy Specialty Examination Review Course*
	Pharmacotherapy Review and Recertification Course*

SUNDAY, JUNE 12

AMBULATORY CARE CONFERENCE | DAY ONE

7:30 a.m. – 6:00 p.m.	Ambulatory Care Review and Recertification Course*
	Critical Care Pharmacy Specialty Examination Review Course*
	Pediatric Pharmacy Specialty Examination Review Course*
	Pharmacotherapy Review and Recertification Course*
8:00 a.m. – 12:15 p.m.	Educational Sessions
1:45 p.m. – 3:45 p.m.	Educational Sessions
4:00 p.m. – 5:00 p.m.	Ambulatory Care Conference Networking Session
5:00 p.m. – 7:00 p.m.	Grand Opening Reception in the Exhibit Hall

MONDAY, JUNE 13

AMBULATORY CARE CONFERENCE | DAY TWO

8:00 a.m. – 9:15 a.m.	Summer Meetings Opening Session
9:30 a.m. – 11:00 a.m.	ConnectLIVE! (A Revolutionary Method of Connecting)
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:15 p.m.	Educational Sessions

TUESDAY, JUNE 14

AMBULATORY CARE CONFERENCE | DAY THREE

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:15 a.m. – 11:00 a.m.	The Inaugural
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:00 p.m.	Educational Sessions

WEDNESDAY, JUNE 15

AMBULATORY CARE CONFERENCE | DAY FOUR

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:00 a.m. – 10:30 a.m.	Energy Break
10:30 a.m. – 12:30 p.m.	Educational Sessions

FEATURED SPEAKERS

TY BENNETT

When Ty was 21 years old, he and his brother Scott started a business in direct sales, which they built to over \$20 million in annual revenue while still in their twenties. Their business sold nutraceuticals through physicians, pharmacists, and other healthcare providers. Since that time, he has developed over 500 sales managers globally with sales and leadership in 37 countries.

Ty went on to found Leadership Inc. — a speaking and training company with a mission to empower individuals and organizations. With a natural ability to engage and empower others, Ty draws on his experience in the trenches to share techniques about the principles of leadership. Ty is a young fresh voice providing interactive presentations that are engaging, dynamic, and inspiring.

His clients include some of the most recognizable brands in the world, including Coca-Cola, Subway, Wounded Warrior Project, Blue Cross Blue Shield, and RE/MAX. Ty has shared the stage with celebrities, Olympians, and world-renowned thought leaders such as President Bush and President Clinton.

For a complete listing of all speaker bios, please visit the Ambulatory Care Conference website at www.ashp.org/ambulatorycareconference.

University of Mississippi School of Pharmacy

Gloria Sachdev, B.S.Pharm., Pharm.D.

Clinical Assistant Professor
Purdue College of Pharmacy

SESSION INFORMATION

SUNDAY

8:00 a.m. - 10:00 a.m.

What You Need to Know to Get Started: Revenue Opportunities for Ambulatory Care Pharmacist Services

Presenters will share billing opportunities available for ambulatory care services provided by a pharmacist. Available billing CPT codes will be discussed for CMS and other payers. Billing criteria including required contract language, and documentation will be emphasized.

Speakers: Gloria P. Sachdev, Pharm.D., B.S.Pharm., R.Ph.; Melanie A. Dodd, Pharm.D., Ph.C., BCPS

10:15 a.m. - 12:15 p.m.

Addressing Complex Ethical Challenges in Health-System Pharmacy: Nurturing Habits of the Heart

(Joseph A. Oddis Ethics Colloquium Sponsored by the ASHP Research and Education Foundation)

The purpose of the session is to identify major contemporary ethical challenges in health-system pharmacy and to instruct attendees in methods (habits) that help health professionals understand and respond to ethical issues in ways that nurture deeply ingrained human values. Identification of ethical issues of concern to health-system pharmacists will draw on the 2016 Pharmacy Forecast report and on a new survey of pharmacists who serve on health-system ethics committees. Instruction in habits of the heart, based on the work of the Center for Courage & Renewal, will be presented by a certified facilitator of the Center.

Speakers: Herdley Paolini, Ph.D.; William Zellmer, B.S.Pharm., M.P.H.

1:45 p.m. - 2:45 p.m.

Taming an Epidemic: The Role of Pharmacists in Outpatient Naloxone Programs

During the past decade, there has been an increase in prescription and illicit opioid overdose deaths within the United States. This session will provide information on identifying patients at risk for opioid overdose, recommendations for implementing an outpatient naloxone program, and the available products and kits for naloxone outpatient use. Real-world experience will be shared with participants, aiming to provide insight on how programs may be replicated within their practice site.

Speakers: Suzanne A. Nesbit, Pharm.D., BCPS, CPE; Juliana Zschoche, Pharm.D.

3:00 p.m. - 3:45 p.m.

Turning Assessment into Action: Using the ASHP Ambulatory Care Self-Assessment Tool to Effect Practice Change

Expanding and enhancing ambulatory care services is an area of focus for many health-systems. The ASHP Ambulatory Care Self-Assessment Tool provides a road map to assist health-systems pharmacists in adopting the Ambulatory Care PAI recommendations both at the practice and practitioner levels. This session will provide participants with up-to-date information on the tool and its use in practice, including specific examples of how the data collected may be used to support practice change.

Speaker: Jennifer Askew Buxton, Pharm.D., CPP; Denise Fields, Pharm.D.

4:00 p.m. - 5:00 p.m.

Ambulatory Care Conference Networking Session

MONDAY

MONDAY | 9:30 a.m. - 11:00 a.m.

**A Revolutionary Event
to Change the Way
You CONNECT**

Making meaningful connections at live conferences is sometimes the most critical aspect of attending a meeting, yet all too often, it fails to happen. That's about to change. At ConnectLIVE! ASHP will change the way you network at live meetings and revolutionize how we problem-solve with our facilitated, participant-centric model. It's networking on steroids accelerated by peer sharing and, in the end, it will help you find the connections and solutions you need to do your job faster, better, and safer.

2:00 p.m. - 3:30 p.m.

Partnership Is the New Leadership: Effective Influence Strategies

Establishing and maintaining positive relationships is an essential part of ambulatory care practice. Your impact will be felt by those with whom you interact whether they are patients, fellow providers, or management personnel. Ty Bennett, the founder of Leadership Inc., will provide attendees with tangible techniques to aid in increasing their impact as leaders and practitioners. Through the power of influence and storytelling, Ty draws on his experience in the trenches to share principles that are effective in adding value to a team and organization.

Speaker: Ty Bennett

3:45 p.m. - 5:15 p.m.

Preparing for the Future: Credentialing, Privileging, and Integrating Clinical Pharmacists into the Medical Staff

With the reintroduction of the provider status bill to Congress, pharmacists should prepare to have an increased role on healthcare teams. Integration into medical staff is an ideal place to begin. Participants will review the role of credentialing and privileging in medical practice and design strategies to help incorporate pharmacists into medical teams.

Speakers: Betsy Shilliday, Pharm.D., CDE, CPP, BCACP, FASHP; Mollie Ashe Scott, Pharm.D.

TUESDAY

8:00 a.m. - 10:00 a.m.

The Command Center: Building Blocks to Engage and Influence the C-Suite

Reaching senior executives has never been more relevant. Messaging the C-suite requires less technical and functional expertise and more leadership skills and grasp of business fundamentals. Participants in this session will be guided in the essential steps to enable engagement from executives and key influencers in their organizations. Tools and resources will be provided to help self-assess communication, strategic planning, gap analysis, and resource allocation in a climate of volume to value revolution.

Speakers: Seena L. Haines, Pharm.D., BCACP, FAPhA, BC-ADM, CDE, FASHP; Sandra Leal, Pharm.D., M.P.H.; Gloria P. Sachdev, Pharm.D., B.S.Pharm., R.Ph.

2:00 p.m. – 3:30 p.m.

Quality Assurance Through Pharmacist Peer Review: Successes and Challenges

Competency assessment, a requirement of Joint Commission, assesses minimum necessary skills but neither knowledge nor clinician proficiency. Pharmacist peer review is a supplementary method that addresses both of these deficits. This session will define peer review processes and characteristics of those processes that increase success. The audience will share their peer review experiences and explore examples of established peer review programs in ambulatory care. Attendees will discuss challenges and successes in implementation of peer review programs and walk away with ideas toward designing new or revising current peer review programs within their institutions.

Speakers: Julie Groppi, Pharm.D.; Addison Ragan, Pharm.D., BCPS, CGP; Pamela L. Stamm, Pharm.D., BCACP, BCPS, CDE

3:45 p.m. – 5:00 p.m.

Ambulatory Care Pearls

Ambulatory care is a continually growing area of pharmacy practice. One of the most beneficial ways to grow your practice is by learning from your peers. The Ambulatory Care Pearls session will feature 12 mini-presentations designed to convey practical ideas, concepts, and facts that are useful in day-to-day practice. While not highly publicized or well-known, these pearls of wisdom may be beneficial to enhancing your practice.

Speakers: Wyatt Gold, PharmD., BCACP; Michelle Hilaire, Pharm.D., BCPS; Karen Gunning, Pharm.D., BCPS, BCACP; Felicity Homsted, Pharm.D., BCPS; Haley M. Phillippe, Pharm.D., BCPS; Megan Koyle, Pharm.D.; Jamie Cavanaugh, Pharm.D., CPP, BCPS; Jessica Wilhoite, Pharm.D., BCACP; Dawn Pettus, Pharm.D.; Sandra Puri, Pharm.D., BCOP; Mary H. Parker, Pharm.D., FCCP, BCPS-AQ Cardiology, FASHP; Jennifer Purdy, Pharm.D., CGP, BCACP; Jennifer Buxton, Pharm.D., CPP, FASHP

WEDNESDAY

8:00 a.m. – 10:00 a.m.

Contemporary Considerations and Models for Transitions of Care Services

Transitions of care is an area of clinical practice in which pharmacists can have an impact as health systems attempt to identify methods that ensure continuity of patient care across a variety of settings. There is not a clear best practice for transitions of care in ambulatory care; thus the role of the pharmacist can be multi-faceted. This session will describe three ambulatory care structural models in addition to justification for pharmacist involvement.

Speakers: Jamie Cavanaugh, Pharm.D., CPP, BCPS; Eric Dietrich, Pharm.D., BCPS; Erika Smith, Pharm.D., BCPS

10:30 a.m. – 12:30 p.m.

Emerging Strategies for Managing Patients, Populations, and Practices

Ambulatory care pharmacy practice is evolving to much more than patient medication management (although that is critical). In many cases, there is often more work than available resources. It is important to know how to prioritize, allocate, collaborate, and delegate pharmacy-related services. This interactive session will provide the opportunity to gain skills in practice, population, and patient management. Discussion and group activities will enhance participants' ability to create efficient and effective services with the goal of improving patient care and practice management.

Speakers: Kristina Butler, Pharm.D., BCACP, FASHP; Alfred "Junior" Lyman, Pharm.D.; Amy Stump, Pharm.D.

GENERAL EDUCATIONAL INFORMATION

Educational Objectives

After participating in the 2016 Ambulatory Care Conference (AC2), participants should be able to:

- Describe opportunities and challenges to advance pharmacy practice, improve safety, and enhance outcomes in ambulatory practice settings.
- Evaluate models of practice and billing that may be incorporated into your practice setting.
- Assess current and future staff development needs to support advanced practice of the healthcare team.
- Develop a list of available resources to advance your ambulatory practice.

Target Audience

Activities are planned and structured to meet professional development needs of pharmacists in a variety of acute care settings, including physician offices, hospital-based clinics, and integrated systems. Content is planned for pharmacists and leaders at all levels of practice and relevant to policymakers, consultants, vendor representatives, and other professionals interested in networking, education, and practice updates on the most current topics shaping the profession today.

ACPE Accreditation

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Some states have special requirements for continuing education (CE) content. Please check with your state to determine if these programs meet your state's requirements.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

Florida Department of Health Continuing Education Credits

Florida-licensed pharmacists must self-report their meeting CE credits to CE Broker. ASHP is not offering Florida Consultant Pharmacy CE at this meeting.

Pharmacists

ASHP determines the number of contact hours for each session. Registrants may earn up to 18.75 contact hours (1.875 CEUs) at the 2016 Ambulatory Care Conference.

REGISTRATION REMINDERS

FOUR MEETINGS.

Register on or before May 5, 2016, and save. ASHP discounted member rates also apply to members of collaborating organizations and of the Canadian Society of Hospital Pharmacists (CSHP). All pre-registrations must be received by ASHP on or before June 6. If you miss the pre-registration deadline, you can register onsite. Register online or call 1-866-279-0681.

Attendees who choose the Ambulatory Care Conference as their primary meeting will still have complete and total access to all the sessions and events happening at any of the concurrent targeted conferences: The Medication Safety Collaborative (MSC), Informatics Institute (I2), or Pharmacy, Practice and Policy. However, CE for non-pharmacists is available only for sessions held at the Medication Safety Collaborative.

	ASHP/Collaborator Members*	Non-members
Register on or before May 5	\$599	\$965**
May 6 - June 6	\$660	\$1,025**
Onsite - after June 6	\$755	\$1,300**
Resident/Technician/Retiree	\$380	\$440**
Student	\$235	\$295
Physician/Nurse		\$655

* NOTE: If you are a member of a collaborating organization but NOT a member of ASHP, to register at the member rate you must register online with the discount code or call customer service directly at 866-279-0681.

** Non-member registrants automatically receive a complimentary 6-month ASHP Membership.

**Encourage
your patient safety
colleagues to attend the
Medication Safety Collaborative!**

This meeting is designed for interprofessional education and collaboration. It's also a great way to ensure that your entire team stays current on the latest safety practices and advances.

2

MEDICATION SAFETY COLLABORATIVE

A conference for your entire Patient Safety Team

THE DIRECTION OF MEDICATION SAFETY

MSC offers four days of interactive education and invaluable networking that will equip and inspire attendees to immediately implement their newfound knowledge into their practices. The content focuses on innovative practices and solutions to optimize safety and quality outcomes. A faculty of distinguished patient-safety experts will lead engaging and interactive sessions where attendees can earn more than 18 hours of CPE, CME, or Nursing CE.

The Medication Safety Collaborative is for interprofessional teams of health-system based clinicians and administrators who focus on quality and patient safety.

Learn the top safety issues, get updates from the Joint Commission, discover scalable solutions to improve safety and quality, and hear real-life examples of solutions on priority issues — all while engaging and networking with other safety professionals.

Who Should Attend?

- Front-line Staff
- Patient safety officers
- Pharmacists
- Physicians
- Nurses
- Medication safety officers
- Quality professionals
- Risk managers
- Administrators

**SPECIAL
PRICING for
physicians, nurses,
and members of
collaborating
organizations**

Medication Safety Collaborative Highlights Include:

- Over 18 hours of CPE, CME, and PNP.
- Peer networking with entire patient safety team.
- Safety-focused keynote address.
- Targeted sessions presented by faculty of experts.
- Vendor exhibits and networking.
- Grand opening reception and lunch buffets.

SUNDAY, JUNE 12

MEDICATION SAFETY COLLABORATIVE | DAY ONE

7:30 a.m. – 6:00 p.m.	Ambulatory Care Review and Recertification Course*
	Critical Care Pharmacy Specialty Examination Review Course*
	Pediatric Pharmacy Specialty Examination Review Course*
	Pharmacotherapy Review and Recertification Course*
8:00 a.m. – 12:15 p.m.	Educational Sessions
1:45 p.m. – 3:45 p.m.	Educational Sessions
4:00 p.m. – 5:00 p.m.	Medication Safety Collaborative Networking Session
5:00 p.m. – 7:00 p.m.	Grand Opening Reception in the Exhibit Hall

MONDAY, JUNE 13

MEDICATION SAFETY COLLABORATIVE | DAY TWO

8:00 a.m. – 9:15 a.m.	Summer Meetings Opening Session
9:30 a.m. – 11:00 a.m.	ConnectLIVE! (A Revolutionary Method of Connecting)
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 3:30 p.m.	Medication Safety Breakthrough Session
3:45 p.m. – 5:15 p.m.	Educational Sessions

TUESDAY, JUNE 14

MEDICATION SAFETY COLLABORATIVE | DAY THREE

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:15 a.m. – 11:00 a.m.	The Inaugural
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:00 p.m.	Educational Sessions

WEDNESDAY, JUNE 15

MEDICATION SAFETY COLLABORATIVE | DAY FOUR

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:00 a.m. – 10:30 a.m.	Energy Break
10:30 a.m. – 12:30 p.m.	Educational Sessions

FEATURED SPEAKERS

DAVID MARX, J.D.

Mr. David Marx is president of Outcome Engenuity, a Dallas-based risk-management firm. He has a B.S. in Mechanical Systems Engineering and a J.D. in Law. His firm currently focuses primarily on helping high-risk organizations develop safety-supportive practices and culture.

Mr. Marx began his career as a Boeing aircraft design engineer. In his final years at Boeing, he organized a human factors and safety group, which won the International Whittle Award for development of a human-

error investigation process now used by air carriers around the world.

In 1997, he launched a research and consulting practice focusing on the management of human error through the integration of systems engineering, human factors, and the law. He has served as an advisor to the Federal Aviation Administration's Human Factors Research Program and to the NASA Space Shuttle Program.

In the healthcare sector, Mr. Marx was the principal consultant guiding the State of Oregon and the Oregon Health Care Association to build the first statewide, quantitative model of medication safety risk. In the area of safety culture, he authored for the National Institutes of Health the document "Patient Safety and the 'Just Culture': A Primer for Healthcare Executives." Mr. Marx's Just Culture tools have now been implemented at a statewide level in both Minnesota and North Carolina. In November 2005, his firm launched the Just Culture Community, a Web-based resource for organizations striving for more open learning cultures. In December 2005, the Institute for Safe Medication Practices awarded him the Cheers award for his work in developing the Just Culture.

Medication Practices

SESSION INFORMATION

Important: All educational sessions in the Medication Safety Collaborative are approved for pharmacy, physician, and nursing continuing education credits, unless otherwise noted.

SUNDAY

8:00 a.m. – 10:00 a.m.

The Joint Commission Update for 2016

This session will provide a foundation for identifying and planning for challenging medication-related standards and National Patient Safety Goals critical to a successful accreditation outcome. An update on Sentinel Event Alerts will be highlighted.

Speaker: Jeannell Mansur, Pharm.D., FASHP

10:30 a.m. – 12:30 p.m.

ISMP 2016 Updates: Best Practices to Enhance Patient Safety

In this session participants will use information from ISMP's national medication-error reporting database to identify areas to improve medication safety in hospitals based on reports from the last 12 months.

Speakers: Michael Cohen, R.Ph., M.S., Sc.D. (Hon.), DPS (Hon.), FAHSP; Christina Michalek, B.S.Pharm., R.Ph., FASHP; Susan F. Paparella, M.S.N., RN; Darryl S. Rich, Pharm.D., M.B.A., FASHP

1:45 p.m. – 3:45 p.m.

Human Factors Discovery: Building a Culture of Accountability

Internationally recognized human factors engineer and attorney, David Marx, will lead an energizing and interactive session about the effects of human factors engineering on patient safety.

Speakers: David Marx, J.D.; Natasha Nicol, Pharm.D., FASHP

4:00 p.m. – 5:00 p.m.

Medication Safety Collaborative Networking Session

2:00 p.m. – 3:30 p.m.

Human Factors Discovery: Designing Safe Systems Through Prosepective Risk Modeling

David Marx will lead an interactive session on risk modeling, allowing participants the ability to practice building interventions around a specific medication safety risk.

Speaker: David Marx, J.D.; Natasha Nicol, Pharm.D., FASHP

MONDAY

MONDAY | 9:30 a.m. - 11:00 a.m. | EXHIBIT HALL

**A Revolutionary Event
to Change the Way
You CONNECT**

Making meaningful connections at live conferences is sometimes the most critical aspect of attending a meeting, yet all too often, it fails to happen. That's about to change. At ConnectLIVE! ASHP will change the way you network at live meetings and revolutionize how we problem-solve with our facilitated, participant-centric model. It's networking on steroids accelerated by peer sharing and, in the end, it will help you find the connections and solutions you need to do your job faster, better, and safer.

3:45 p.m. - 5:15 p.m.

The Great Safety Debate

See history unfold at the first Great Safety Debate. Specialists from across the country will meet on stage for a lively debate of top safety concerns, moderated by Sean Cudahy, NBC News Charlottesville.

Speakers: Gregory P. Burger, Pharm.D., CPPS; Rosemary Call, Pharm.D., BCPS; Michael Cohen, R.Ph., M.S., Sc.D. (Hon.), DPS (Hon.), FASHP; Sean Cudahy, B.A.; Michael C. Dejos, Pharm.D., BCPS; Natasha Nicol, Pharm.D., FASHP; Christopher M. Patty, DNP, R.N., CPPS; Nancy Rampe, Pharm.D.; Meghan M. Rowcliffe, Pharm.D., BCPS; Linda M. Spooner, Pharm.D., BCPS (AQ-ID), FASHP

8:00 a.m. - 10:00 a.m.

Lean for Pharmacy

Didactic presentation on Lean principles, interspersed with break out activities directed by Lean-trained facilitators. See Lean come alive, and learn techniques you can bring home to begin optimizing your own processes.

Speaker: Bob Feroli, Pharm.D., FASHP

TUESDAY

2:00 p.m. - 3:30 p.m.

Bridging Islands of Information: Connecting the EHR to Biomedical Discoveries

In this joint breakout session for Informatics and Med Safety, Dr. Tatonetti will reveal how big data is captured by electronic health records, evaluate its bias, and involve attendees in an activity to demonstrate data-mining strategies.

Speaker: Nicholas Tatonetti, Ph.D.

3:45 p.m. - 5:00 p.m.

Safety Wisdom in the Pecha-Kucha Style

Safety vignettes will be presented in the streamlined Pecha-Kucha format, incorporating the value of imagery and storytelling to healthcare professionals' communication.

Speaker: Kyle Hultgren, Pharm.D.

WEDNESDAY

8:00 a.m. - 10:00 a.m.

Data Mining for Drug Safety

In a second featured joint breakout session for Informatics and Med Safety, Dr. Tatonetti will make the connection from data collection to patient protection. Just how does a side effect end up on a drug label? What statistical methods can be used to find and predict drug-drug interactions using observational clinical data? This interactive session will bring these topics into an understandable focus for practitioners.

Speaker: Nicholas Tatonetti, Ph.D.

10:30 a.m. - 12:30 p.m.

It's Not the 1970s Anymore: Doing RCAs Like a 21st-Century System Safety Engineer

In this interactive session by one of the nation's top safety specialists, participants will work through the steps and strategies in the new RCA-2 process, led by one of its authors, Dr. Terry Fairbanks, and assisted by Dr. Seth Krevat, M.D.

Speakers: Terry Fairbanks, M.D.; Seth Krevat, M.D.; Natasha Nicol, Pharm.D., FASHP

The Medication Safety Collaborators

A special thanks to the following supporters of the third annual Collaborative.

For more information, visit our Collaborators page on the meeting site.
www.medicationsafetycollaborative.org

GENERAL EDUCATIONAL INFORMATION

Educational Objectives

After participating in the 2016 Medication Safety Collaborative (MSC), participants should be able to:

- Explore strategies to support regulatory compliance and enhanced patient safety in managing medication therapy in their practice settings.
- Assess at least three strategies that have been shown to be effective in reducing medication errors through changes in EHR and computerized order entry systems.
- Analyze the results and recommendations of recently published papers to apply in their practice and organizations.
- Develop strategies for incorporating information into actionable scorecards and dashboards.

Target Audience

Activities are planned and structured to meet the education needs of pharmacists, nurses, physicians, and associated personnel in a variety of healthcare settings, including those practicing in large and small hospitals, managed care facilities, inpatient facilities, outpatient clinics, and homecare settings, as well as in academia and the pharmaceutical industry.

ACPE Accreditation

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy professional development as a provider of continuing pharmacy education.

Some states have special requirements for continuing education (CE) content. Please check with your state to determine if these programs meet your state's requirements.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

Florida Department of Health Continuing Education Credits

Florida-licensed pharmacists must self-report their meeting CE credits to CE Broker. ASHP is not offering Florida Consultant Pharmacy CE at this meeting.

Pharmacists

ASHP determines the number of contact hours for each session. Registrants may earn up to 18.75 contact hours (1.875 CEUs) at the 2016 Medication Safety Collaborative.

Nurses

Education Review Systems is an approved approver of continuing nursing education by the Alabama State Nursing Association, an approver accredited by the American Nurses Credentialing Center's Commission on Accreditation. Provider # 5-115.

Educational Review Systems is also approved for nursing continuing education by the state of California, the state of Florida, and the District of Columbia.

Programs in the 2016 Medication Safety Collaborative are approved for continuing nursing education. See each individual activity for credit hours approved.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

Physicians

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Society of Health-System Pharmacists designates this live activity for a maximum of 18.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

REGISTRATION REMINDERS

FOUR MEETINGS.

Register on or before May 5, 2016, and save. ASHP discounted member rates also apply to members of collaborating organizations; and of the Canadian Society of Hospital Pharmacists (CSHP). All pre-registrations must be received by ASHP on or before June 6. If you miss the pre-registration deadline, you can register onsite. Register online or call 1-866-279-0681.

	ASHP/Collaborator Members*	Non-members
Register on or before May 5	\$599	\$965**
May 6 - June 6	\$660	\$1,025**
Onsite - after June 6	\$755	\$1,300**
Resident/Technician/Retiree	\$380	\$440**
Student	\$235	\$295
Physician/Nurse		\$655

* NOTE: If you are a member of a collaborating organization, but NOT a member of ASHP, to register at the member rate you must register online with the discount code or call customer service directly at 866-279-0681.

** Non-member registrants automatically receive a complimentary 6-month ASHP Membership.

Attendees who choose the Medication Safety Collaborative as their primary meeting will still have complete and total access to all the sessions and events happening at any of the concurrent targeted conferences: Informatics Institute (I2), Ambulatory Care Conference (AC2), or Pharmacy, Practice & Policy. However CE for non-pharmacists is available only for sessions held at the Medication Safety Collaborative.

**Encourage
your patient safety
colleagues to attend the
Medication Safety Collaborative.**

This meeting is designed for interprofessional education and collaboration. It's also a great way to ensure that your entire team stays current on the latest safety practices and advances.

3

INFORMATICS INSTITUTE

Innovate, Implement, Interactive, Ideas, Improve

THE DIRECTION OF PHARMACY INFORMATICS

Is this your inaugural experience with I2? Designed for Informaticists from all practice areas, the goal of I2 is to provide high-quality, advanced programming targeted to improve use of healthcare technology in all patient care settings.

I2 will provide high-quality, advanced programming designed for informaticists to innovate and improve the use of information technology in all patient care settings.

**SPECIAL
PRICING for
physicians, nurses,
and members of
collaborating
organizations**

Who Should Attend?

- Pharmacists
- Pharmacy technicians
- Health information technology professionals
- Systems developers
- Policymakers
- Consultants
- Vendor representatives
- Other professionals involved in the collection and dissemination of health information.

Informatics Institute Highlights Include:

- Over 18 hours of CE on topics including: Specialty Pharmacy, Transitions of Care, Cognitive Burdens of EHR Systems, and Pediatric Informatics
- Informatics-focused keynote address.
- Peer knowledge-sharing events and social gatherings.
- CPHIMS Review Course.
- Targeted sessions presented by faculty of experts.
- Vendor exhibits and networking.
- Grand opening reception and lunch buffets.

AGENDA

*= Separate fee required

SATURDAY, JUNE 11

PRE-CONFERENCE

7:30 a.m. – 6:00 p.m.	Ambulatory Care Review and Recertification Course*
	Critical Care Pharmacy Specialty Examination Review Course*
	Pediatric Pharmacy Specialty Examination Review Course*
	Pharmacotherapy Review and Recertification Course*
8:00 a.m. – 5:00 p.m.	CPHIMS Review Course*

SUNDAY, JUNE 12

INFORMATICS INSTITUTE | DAY ONE

7:30 a.m. – 6:00 p.m.	Ambulatory Care Review and Recertification Course*
	Critical Care Pharmacy Specialty Examination Review Course*
	Pediatric Pharmacy Specialty Examination Review Course*
	Pharmacotherapy Review and Recertification Course*
8:00 a.m. – 12:15 p.m.	Educational Sessions
1:45 p.m. – 3:45 p.m.	Educational Sessions
4:00 p.m. – 5:00 p.m.	Informatics Institute Networking Session
5:00 p.m. – 7:00 p.m.	Grand Opening Reception in the Exhibit Hall

MONDAY, JUNE 13

INFORMATICS INSTITUTE | DAY TWO

8:00 a.m. – 9:15 a.m.	Summer Meetings Opening Session
9:30 a.m. – 11:00 a.m.	ConnectLIVE! (A Revolutionary Method of Connecting)
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:15 p.m.	Educational Sessions

TUESDAY, JUNE 14

INFORMATICS INSTITUTE | DAY THREE

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:15 a.m. – 11:00 a.m.	The Inaugural
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:00 p.m.	Educational Sessions

WEDNESDAY, JUNE 15

INFORMATICS INSTITUTE | DAY FOUR

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:00 a.m. – 10:30 a.m.	Energy Break
10:30 a.m. – 12:30 p.m.	Educational Sessions

FEATURED SPEAKERS

NICHOLAS TATONETTI, Ph.D.

Dr. Nicholas Tatonetti is assistant professor of biomedical informatics in the Departments of Biomedical Informatics, Systems Biology, and Medicine, as well as Director of Clinical Informatics, at the Herbert Irving Comprehensive Cancer Center at Columbia University. He received his Ph.D. from Stanford University, where he focused on the development of

novel statistical and computational methods for observational data mining. Applying these methods to drug safety surveillance, he discovered and validated new drug effects and interactions. His lab at Columbia is focused on expanding on his previous work in detecting, explaining, and validating drug effects and drug interactions from large-scale observational data.

Widely published in both clinical and bioinformatics, Dr. Tatonetti is passionate about the integration of hospital data (stored in the electronic health records) and high-dimensional biological data (captured using next-generation sequencing, high-throughput screening, and other “omics” technologies). Dr. Tatonetti has been featured in The New York Times, Genome Web, and Science Careers. His work has been covered by the mainstream and scientific media and has generated thousands of news articles.

JOAN S. ASH, Ph.D., M.L.S., M.B.A.

Dr. Joan S. Ash is professor and vice-chair, Department of Medical Informatics and Clinical Epidemiology, School of Medicine, Oregon Health & Science University (OHSU), Portland, Ore. She holds master’s degrees in library science, health science, and business administration as well as a Ph.D. in systems science. Dr. Ash has served on the Board of Directors of the American Medical Informatics Association, the Board of Directors of the Medical

Library Association, the Biomedical Library and Informatics Review Committee of the National Library of Medicine, and as chair of the Board of Scientific Counselors for the Lister Hill National Center for Biomedical Communications of NLM. She has also served on two of the Office of the National Coordinator (ONC) for HIT’s Advisory Committee work groups. She is an elected fellow of the American College of Medical Informatics.

Dr. Ash’s research focuses on behavioral and social issues related to implementing clinical information systems, specifically computerized provider order entry (CPOE) and clinical decision support (CDS), as well as the use of qualitative methods for conducting such studies. Her research team has conducted national surveys of CPOE use and its unintended consequences as well as fieldwork in 25 organizations to investigate success factors and unintended consequences related to CPOE and CDS. The team has also conducted fieldwork to investigate the safety of electronic health records, with results leading to publication of the SAFER guides by the ONC.

SESSION INFORMATION

Sessions within the Informatics Institute have been submitted for review and approval of continuing education (CE) hours for use in fulfilling the CE requirements of the Certified Professional in Healthcare Information and Management Systems (CPHIMS).

SATURDAY

8:00 a.m. – 5:00 p.m. (check in: 7:30 a.m.)

CPHIMS REVIEW COURSE

Certified Professional in Healthcare Information & Management Systems (CPHIMS)

Separate registration fee required.

CPHIMS is a professional certification program for healthcare information and management systems professionals.

- Distinguish yourself in an increasingly competitive marketplace.
- Expand your career opportunities.
- Validate your knowledge, competency and credibility.
- Gain skills and tools to help you make a difference in your organization, and your community.
- Demonstrate your commitment to continuing professional development.

For more information and to register, visit www.ashp.org/isquared and click Review Courses under the Education tab.

SUNDAY

8:00 a.m. – 10:00 a.m.

Contemporary Considerations for the Evolving Role of Artificial Intelligence (AI) in Pharmacy

Join a high-level discussion panel for a pragmatic conversation about the state of automated data analysis technologies and some of the considerations that the pharmacy profession is facing as these systems rapidly expand in both scope and capability.

Speakers: Nate Peaty, Pharm.D., M.S.; Dennis A. Tribble, Pharm.D., FASHP; James Russell, B.S.Pharm.

10:30 a.m. – 12:30 p.m.

Creating Transparency Across the Health Information Infrastructure

Can a system work well if its components don't interface seamlessly? Join a connected faculty for some tips and trouble shooting on interoperability.

Speakers: Barbara Giacomelli, Pharm.D., M.B.A., FASHP; Christopher J. Urbanski, R.Ph., M.S.; Deborah Hauser, B.S., M.H.A.; Bonnie Levin, Pharm.D., M.B.A.

1:45 p.m. – 3:45 p.m.

Predictive Analytics: Not so Obvious Analysis

Predictive analytics (PA) is a valuable tool for proactively evaluating pharmacy orders and system trends. Get guidance from expert faculty on how to make system changes to enhance your current practice, or even implement PA in your facility.

Speakers: Anthony C. Colavecchia, Pharm.D., M.S., BCPS; Seth W. Hartman, Pharm.D.; Jake McFarland, Pharm.D.

4:00 p.m. – 5:00 p.m.

Informatics Institute Networking Session

MONDAY

MONDAY | 9:30 a.m. – 11:00 a.m. | EXHIBIT HALL

A Revolutionary Event to Change the Way You CONNECT

Making meaningful connections at live conferences is sometimes the most critical aspect of attending a meeting, yet all too often, it fails to happen. That's about to change. At ConnectLIVE! ASHP will change the way you network at live meetings and revolutionize how we problem-solve with our facilitated, participant-centric model. It's networking on steroids accelerated by peer sharing and, in the end, it will help you find the connections and solutions you need to do your job faster, better, and safer.

2:00 p.m. – 3:30 p.m.

e-Iatrogenesis: First Do No Harm

The format will include didactic information about e-Iatrogenesis, unintended consequences of health information technology (HIT) in general, the highest risk HIT safety issues, and the prevention and mitigation of e-Iatrogenesis. Attendees will view a video dramatizing a case study of e-Iatrogenesis and will perform an exercise developing strategies to address the issues depicted in the video.

Speakers: Joan S. Ash, Ph.D., M.L.S., M.B.A.; Seth W. Hartman, Pharm.D.

3:45 p.m. – 5:15 p.m.

ICD-10 & SNOMED: Capturing Codes for Pharmacy's Success

This session will address national trends pursuant to pharmacy/clinical informatics and the impact of ICD-10 on clinical practice. Clinical and pharmaceutical compliance relative to ICD-10 and SNOMED will be discussed inclusive of clinical and informatics case studies. The impact to pharmacy/clinical informatics will be discussed and evaluated by the presenters.

Speakers: Steve Riddle, Pharm.D., BCPS, FASHP; Nancy Smestad, M.S., B.S.; Robert L. Stein, Pharm.D., J.D.

8:00 a.m. – 10:00 a.m.

Passive Decision Support: Supporting Decision Support

Join a multi-disciplinary and geographically diverse faculty brought together to illustrate and evaluate the remarkable benefits of a move to passive decision support. Enjoy an interactive program and take away strategies to decrease active decision support alert fatigue.

Speakers: David A. Agüero, Pharm.D.; Raymond C. Chan, Pharm.D.; Vipul Patel, Pharm.D.; Gordon Schiff, M.D.

2:00 p.m. – 3:30 p.m.

Bridging Islands of Information: Connecting the EHR to Biomedical Discoveries

In this joint break-out session for Informatics and Med Safety, Dr. Tatonetti will reveal how big data is captured by electronic health records, evaluate its bias, and involve attendees in an activity to demonstrate data-mining strategies.

Speaker: Nicholas Tatonetti, Ph.D.

3:45 p.m. – 5:00 p.m.

Staying on Your Game: Maintaining Competency in Informatics

Training and competencies for key areas including EHR, CDS, BCMA, and Smart pumps are essential for informatics personnel. Objectively analyze where you stand and learn which resources are best for sharpening areas where more skills are desired. Take home an individualized plan for Continuing Professional Development to keep your learning on track.

Speakers: Janinah Barreto, Pharm.D., M.S., CPHIMS; Brian Pinto, Pharm.D., M.B.A., B.S.

WEDNESDAY

8:00 a.m. – 10:00 a.m.

Data Mining for Drug Safety

In a second featured joint break-out session for Informatics and Med Safety, Dr. Tatonetti will make the connection from data collection to patient protection. Just how does a side-effect end up on a drug label? What statistical methods can be used to find and predict drug-drug interactions using observational clinical data? This interactive session will bring these topics into an understandable focus for practitioners.

Speaker: Nicholas Tatonetti, Ph.D.

10:30 a.m. – 12:30 p.m.

Track and Trace: Serialization in Pharmacy Informatics

Nationally recognized professional experts discuss DSCSA, also known as track and trace. Expert guidance will be offered for securing your supply chain, and attendees will work toward developing a plan for implementation based on best practices.

Speakers: David A. Agüero, Pharm.D.; Chris Chandler, Pharm.D.; Dirk Rodgers

GENERAL EDUCATIONAL INFORMATION

Educational Objectives

After participating in the 2016 Informatics Institute (I2), participants should be able to:

- Analyze the latest research in biomedical and health informatics for its potential application to improve individual and population outcomes.
- Identify opportunities and challenges for health informatics.
- Network with health information technology stakeholders to exchange ideas on novel methods for using clinical data, streamlining coordination of care, and implementing best practices.
- Contribute to leading informatics change in one's professional setting.

Target Audience

Activities are planned and structured to meet the professional development needs of pharmacists, pharmacy technicians, health information technology professionals, systems developers, policymakers, consultants, vendor representatives, and other professionals involved in the collection and dissemination of health information.

ACPE Accreditation

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Some states have special requirements for continuing education (CE) content. Please check with your state to determine if such requirements exist and to determine if these programs meet those requirements.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

Florida Department of Health Continuing Education Credits

Florida-licensed pharmacists must self-report their meeting CE credits to CE Broker. ASHP is not offering Florida Consultant Pharmacy CE at this meeting.

Pharmacists

ASHP determines the number of contact hours for each session. Registrants may earn up to 18.75 contact hours (1.875 CEUs) at the 2016 Informatics Institute.

REGISTRATION REMINDERS

FOUR MEETINGS.

Register on or before May 5, 2016, and save. ASHP discounted member rates also apply to members of collaborating organizations and of the Canadian Society of Hospital Pharmacists (CSHP). All pre-registrations must be received by ASHP on or before June 6. If you miss the pre-registration deadline, you can register onsite. Register online or call 1-866-279-0681.

	ASHP/Collaborator Members*	Non-members
Register on or before May 5	\$599	\$965**
May 6 - June 6	\$660	\$1,025**
Onsite - after June 6	\$755	\$1,300**
Resident/Technician/Retiree	\$380	\$440**
Student	\$235	\$295
Physician/Nurse		\$655

* NOTE: If you are a member of a collaborating organization, but NOT a member of ASHP, to register at the member rate you must register online with the discount code or call customer service directly at 866-279-0681.

** Non-member registrants automatically receive a complimentary 6-month ASHP Membership.

Attendees who choose the Informatics Institute as their primary meeting will still have complete and total access to all the sessions and events happening at any of the concurrent targeted conferences: The Medication Safety Collaborative (MSC), Ambulatory Care Conference (AC2), or Pharmacy, Practice & Policy. However, CE for non-pharmacists is available only for sessions held at the Medication Safety Collaborative.

Encourage your patient safety colleagues to attend the Medication Safety Collaborative.

This meeting is designed for interprofessional education and collaboration. It's also a great way to ensure that your entire team stays current on the latest safety practices and advances.

4

PHARMACY, PRACTICE & POLICY

Professional, Provider Status, Practical, Prevention

THE DIRECTION OF LEADERSHIP

Pharmacy, Practice & Policy is an event for directors, managers, and thought leaders in contemporary practice.

Participants will learn how to be *productive* leaders amidst a *perpetually* changing pharmacy landscape, and how to *properly* identify opportunities and challenges posed for the future of pharmacy. Throughout the meeting, you will network with profession stakeholders in order to exchange ideas, as well as analyze the latest practice advancements and treatments in critical care.

Simply put, this meeting is what you NEED to know for contemporary pharmacy practice.

Who Should Attend?

- Pharmacists at all levels of practice
- Policymakers
- Consultants
- Vendor representatives
- Other professionals who are interested in current healthcare trends

SPECIAL PRICING for physicians, nurses, and members of collaborating organizations

Pharmacy, Practice & Policy highlights include:

- Over 18 hours of CE on topics including Leadership, Operations Management, Clinical Practice, and Policy and Compliance.
- Policy and leadership networking opportunities.
- Peer knowledge-sharing events and social gatherings.
- Targeted sessions presented by faculty of experts.
- Vendor exhibits and networking.
- Grand opening reception and lunch buffets.

MONDAY, JUNE 13

PHARMACY, PRACTICE & POLICY | DAY TWO

8:00 a.m. – 9:15 a.m.	Summer Meetings Opening Session
9:30 a.m. – 11:00 a.m.	ConnectLIVE! (A Revolutionary Method of Connecting)
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:15 p.m.	Educational Sessions

TUESDAY, JUNE 14

PHARMACY, PRACTICE & POLICY | DAY THREE

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:15 a.m. – 11:00 a.m.	The Inaugural
11:00 a.m. – 2:00 p.m.	Exhibit Program and Hosted Lunch
12:15 p.m. – 1:30 p.m.	Posters
2:00 p.m. – 5:00 p.m.	Educational Sessions

WEDNESDAY, JUNE 15

PHARMACY, PRACTICE & POLICY | DAY FOUR

8:00 a.m. – 10:00 a.m.	Educational Sessions
10:00 a.m. – 10:30 a.m.	Energy Break
10:30 a.m. – 12:30 p.m.	Educational Sessions

FEATURED SPEAKERS

ALEXANDER GRASHOW

Alexander Grashow is a recognized authority on leadership development and business adaptation. He is a renowned facilitator, speaker, and advisor to leaders around the world, with a broad reach into the global business, philanthropic, and creative communities. For the last two decades he has created programs that are uplifting, intensive and highly interactive, focusing on the idea that the capacity to adapt and evolve is increasingly vital to each of us, while engaging with the most successful leaders and companies in the world.

He co-authored *Adaptive Leadership: Tools and Tactics for Changing the World*, from Harvard Business School Press. He was also co-author of the *Harvard Business Review* article entitled “Leadership in a Permanent Crisis.” Alexander both redesigned, and served as the lead moderator, for the Clinton Global Initiative. More recently his work with InterAction had him convening the CEOs of the 50 largest international non-profits to discuss the further evolution of their organizations in response to the exigencies of the 21st century.

In 2015 Alexander founded the Lacuna Institute, which provides highly curated leadership and life planning experiences. Lacuna helps each participant to go through a process of reflection and renewal to design an integrated road map for a wondrous life and impact.

For a complete listing of all speaker bios, please visit the Pharmacy, Practice & Policy website at www.ashp.org/pharmacy-practice-policy.

Medical Director, Inova
Occupational Health

SESSION INFORMATION

SUNDAY

8:00 a.m. - 10:00 a.m.

340B Update and Challenges with Limited Distribution Drugs

The 340B program remains an essential component to ensuring safety net providers have access to affordable medication, but this program has received unprecedented scrutiny from congressional oversight and the drug industry in recent years. The federal government's Health Resources and Services Administration (HRSA) has responded with integrity initiatives including increasing the number of audits and proposing pending policy changes. This session will outline the latest HRSA priorities regarding audits and other policy initiatives such as the megaguidance and published draft regulations. HRSA's Prime Vendor Program, managed by Apexus, will provide an environmental scan for limited distribution drugs in the 340B space. Expert speakers will discuss specific challenges in this area, including access to drug product, price, and payer, as well as the complexity of data requirements associated with limited distribution drugs. Bring your questions to this interactive panel-based session; leave with new information that will update you on the latest 340B program integrity hot topics, and equip you to understand current challenges in the marketplace in this emerging area.

Speakers: Gerald E. Buller, Ph.D.; Christopher Hatwig, R.Ph., M.S., FASHP; JoAnn Stubbings, B.S.Pharm., M.H.C.A.; Ross Thompson, M.S., R.Ph., FASHP

10:15 a.m. - 12:15 p.m.

Addressing Complex Ethical Challenges in Health-System Pharmacy: Nurturing Habits of the Heart *(Joseph A. Oddis Ethics Colloquium Sponsored by the ASHP Research and Education Foundation)*

The purpose of the session is to identify major contemporary ethical challenges in health-system pharmacy and to instruct attendees in methods (habits) that help health professionals understand and respond to ethical issues in ways that nurture deeply ingrained human values. Identification of ethical issues of concern to health-system pharmacists will draw on the 2016 Pharmacy Forecast report and on a new survey of pharmacists who serve on health-system ethics committees. Instruction in habits of the heart, based on the work of the Center for Courage & Renewal, will be presented by a certified facilitator of the center.

Speakers: Herdley Paolini, Ph.D.; William Zellmer, B.S. Pharm., M.P.H.

1:45 p.m. – 3:45 p.m.

New Drugs in Primary Care 2016

Always a highlight of the Summer Meetings, this session reviews new medications with special emphasis on key drug information issues, pertinent disease facts, and assessment of the usefulness of these medications in primary care. Economic issues will also be discussed.

Speaker: Tom Frank, Pharm.D., BCPS

4:00 p.m. – 5:00 p.m.

Pharmacy, Practice & Policy Networking Session

MONDAY

MONDAY | 9:30 a.m. – 11:00 a.m. | EXHIBIT HALL

**A Revolutionary Event
to Change the Way
You CONNECT**

Making meaningful connections at live conferences is sometimes the most critical aspect of attending a meeting, yet all too often, it fails to happen. That's about to change. At ConnectLIVE! ASHP will change the way you network at live meetings and revolutionize how we problem-solve with our facilitated, participant-centric model. It's networking on steroids accelerated by peer sharing and, in the end, it will help you find the connections and solutions you need to do your job faster, better, and safer.

2:00 p.m. – 3:30 p.m.

Advanced Leadership Series Part 1: The Nature of Business and Adaptation

Encountering change is an inevitable part of leadership. Embracing the positive aspects of change as well as the disequilibrium that may occur is a learned skill that must be developed. Recognizing opportunities to hit the reset button is the key to reshaping and redefining the role of your department within the overall organization. During Part 1 of the Advanced Leadership Series, Alexander Grashow will lead an interactive session providing attendees with the tools necessary to successfully adapt to adjustments and developments within their organizations.

Speaker: Alexander Grashow

3:45 p.m. – 5:15 p.m.

Advanced Leadership Series Part 2: Mobilizing Stakeholders with Competing Interests

Building on the concepts learned in Part 1, this session explores partnering with groups that share competing interests. How do you propel your department forward and maintain working relationships with those that are also attempting to advance? This interactive workshop will provide attendees with the opportunity to learn from their peers through shared personal experiences and group activities designed to enhance their partnership skillsets.

Speaker: Alexander Grashow

TUESDAY

8:00 a.m. - 10:00 a.m.

Unforeseen Dangers: Managing Hazardous Drugs Outside the Pharmacy

Join the industry's experts on USP 800 for an interactive session on how to handle and administer hazardous drugs outside the traditional pharmacy setting. Learn to identify your system's points of vulnerability and have your questions addressed.

Speakers: Ellen R. Kessler, M.D., M.P.H., FACP; Patricia C. Kienle, M.P.A., FASHP; Mikaela Olsen, APRN-CNS, M.S., ACONS

2:00 p.m. - 3:30 p.m.

Decision 2016: An Examination of Key Issues in Congress, Agencies, and the States Impacting Health-System Pharmacy

This session will explore the critical issues facing health system pharmacists in Congress, federal agencies, and the states. Efforts to achieve provider status at the federal level, state activity, and key regulatory issues will likely be the focus of the session.

Speakers: Nicholas Gentile, B.A.; Joseph Hill, M.A.; Kasey Thompson, Pharm.D., M.S., M.B.A.; Christopher Topoleski, B.A.

3:45 p.m. - 5:00 p.m.

Delirium Prevention: A Patient Safety Opportunity

Recipient of the ASHP Foundation's Award for Excellence in Medication-Use Safety, this educational program includes an overview of the incidence, risk factors, and outcomes associ-

ated with delirium in hospitalized elders. Faculty will discuss a roadmap to implement, evaluate, and sustain a multicomponent interventional strategy for delirium prevention. Within this context, attendees will be able to identify key components that can be adopted at their organizations, considering available resources.

Speakers: Mobolaji Adeola, Pharm.D., BCPS; Rejena Azad, Pharm.D., BCPS

WEDNESDAY

8:00 a.m. - 10:00 a.m.

Be the Hero: How to Resolve Common Workplace Dilemmas

It never fails. No matter how many sessions we attend, classes we take, or books we read, there always seems to be another frustrating workplace dilemma to deal with. A dysfunctional colleague, a boss who doesn't listen, or a team that can't communicate. In this session, we'll talk about the keys to becoming the hero who is able to deal with some of the biggest issues pharmacy professionals are facing today. (REALLY! We polled ASHP conference attendees to learn about their WORST issues and situations as a foundation for this session!)

Speaker: Leslie Stein, B.S.

10:30 a.m. – 12:30 p.m.

Facilitative Leadership: How to Get the Best out of EVERYONE on Your Pharmacy Team (Including Your Boss)

Does it sometimes feel like your team, your department, or your whole organization has irreconcilable differences? Although the gap between where your team is and where you want them to be may seem huge, a few key changes can help you manage this gap. This session shares those keys and will help you learn the elements to create a healthy team environment. Whether your team needs to move from garbage to good or from good to great, this session will help you explore how to help your team (including your boss) take that journey.

Speaker: Leslie Stein, B.S.

FOR STUDENTS

SUNDAY

8:00 a.m. – 9:30 a.m.

Meet and Greet with Pharmacy Leaders

Planned in cooperation with the ASHP Pharmacy Student Forum

Facilitated by Sara J. White, students will connect and interact with top practice leaders in an exclusive and intimate environment.

Lead Facilitator: Sara J. White, M.S., FASHP, (Ret.) Director of Pharmacy, Stanford Hospital and Clinics, Palo Alto, Calif.

9:30 a.m. – 12:30 p.m.

Student Leadership Development Workshop

Planned in cooperation with the ASHP Pharmacy Student Forum

Calling all future leaders in the profession of pharmacy! This interactive session will expose you to the state of our profession and open your eyes to leadership opportunities that await you. Learn practical ways to incorporate leadership into your professional life and start building an impressive CV.

MONDAY

12:45 p.m. – 1:30 p.m.

Student Advocacy Workshop

The session will provide an overview of the components of political advocacy as well as background on key issues affecting pharmacy students. You'll get details on current provider status legislation, the Pharmacy and Medically Underserved Areas Enhancement Act (H.R. 592/S. 314), and learn what you, and your SSHP, can do to build support for the bills and help ensure that pharmacists are recognized as providers.

Speaker: John Spence

GENERAL EDUCATIONAL INFORMATION

Educational Objectives

After participating in the 2016 Pharmacy, Practice, & Policy Meeting, participants should be able to:

- Contribute to leading change in their professional settings.
- Identify opportunities and challenges posed for the future of pharmacy.

Target Audience

Activities are planned and structured to meet the professional development of pharmacists and pharmacy technicians in a variety of healthcare systems at all levels of practice, from front-line practitioners to seasoned leaders of multi hospital systems. The meeting is also relevant for policymakers, consultants, vendor representatives, and other professionals interested in networking, education, and policy updates on the most current topics shaping the profession today.

ACPE Accreditation

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Some states have special requirements for continuing education (CE) content. Please check with your state to determine if these programs meet your state's requirements.

All CE must be claimed within 60 days of the live activity; no partial credit is granted.

Florida Department of Health Continuing Education Credits

Florida-licensed pharmacists must self-report their meeting CE credits to CE Broker. ASHP is not offering Florida Consultant Pharmacy CE at this meeting.

Pharmacists

ASHP determines the number of contact hours for each session. Registrants may earn up to 18.75 contact hours (1.875 CEUs) at the 2016 Pharmacy, Practice & Policy meeting.

REGISTRATION REMINDERS

FOUR MEETINGS.

Register on or before May 5, 2016 and save! ASHP discounted member rates also apply to members of collaborating organizations and of the Canadian Society of Hospital Pharmacists (CSHP). All pre-registrations must be received by ASHP on or before June 6. If you miss the pre-registration deadline, you can register onsite. Register online or call 1-866-279-0681.

	ASHP/Collaborator Members*	Non-members
Register on or before May 5	\$599	\$965**
May 6 - June 6	\$660	\$1,025**
Onsite - after June 6	\$755	\$1,300**
Resident/Technician/Retiree	\$380	\$440**
Student	\$235	\$295
Physician/Nurse		\$655

* NOTE: If you are a member of a collaborating organization, but NOT a member of ASHP, to register at the member rate you must register online with the discount code or call customer service directly at 866-279-0681.

** Non-member registrants automatically receive a complimentary 6-month ASHP Membership.

Attendees who choose Pharmacy, Practice & Policy as their primary meeting will still have complete and total access to all the sessions and events happening at any of the concurrent targeted conferences: the Medication Safety Collaborative (MSC), Informatics Institute (I2), or the Ambulatory Care Conference (AC2). However, CE for non-pharmacists is available only for sessions held at the Medication Safety Collaborative.

**Encourage
your patient safety
colleagues to attend the
Medication Safety Collaborative!**

This meeting is designed for interprofessional education and collaboration. It's also a great way to ensure that your entire team stays current on the latest safety practices and advances.

**WE CANNOT CONTROL THE WIND
BUT WE CAN DIRECT THE SAIL.**
